OPINION

Zoning Text Amendment No. 04-16 was introduced on July 27, 2004, to reinstate the Annual Growth Policy traffic mitigation process in place of the traffic test that customarily takes place at the rezoning stage. ZTA 04-16 clarifies an issue raised by the Hearing Examiner in Local Map Amendment G-801, that a zoning text amendment arguably is needed if the Annual Growth Policy traffic mitigation process is to be applied as a method of traffic review at the zoning stage. Under ZTA 04-16, an applicant for local map amendment for property located within a Metro station policy area may satisfy traffic impact issues by meeting applicable trip reduction requirements of the Alternative Review Procedure for Metro Station Policy Areas.

The Montgomery County Planning Board in its report to the Council recommended that the text amendment be approved.

The County Council held a public hearing on September 14, 2004, to receive testimony concerning the proposed text amendment. The text amendment was referred to the Planning, Housing, and Economic Development Committee for review and recommendation.

The Planning, Housing, and Economic Development Committee held worksessions on October 21, 2004 and March 7, 2005 to review the amendment. At the October 21, worksession, the PHED Committee requested that the Montgomery County Planning Board revisit its recommendation to approve ZTA 04-16. The Committee requested that the Planning Board consider the concerns raised by the Garrett Park Estates – White Flint Park Citizen's Association about congestion levels in North Bethesda Metro Station Policy area as reported in the recent Approved Development and Congestion Report. At the March 7, worksession, the Committee reviewed the Planning Board response to the Committee's request. The Committee agreed with the assessment of the Planning Board that ZTA 04-16 is needed to implement fully the County Council's Growth Policy Decision of October 2003 and to ensure that the process for testing the adequacy of transportation facilities at the zoning stage is consistent with the process for testing the adequacy of transportation facilities at the subdivision stage for projects using the Alternative Review Procedure for Metro Station Policy Areas. The Committee recommended that ZTA 04-16 be approved as introduced.

The District Council reviewed Zoning Text Amendment No. 04-16 at a meeting held on April 5, 2005 and agreed with the recommendations of the Planning, Housing, and Economic Development Committee.

For these reasons and because to approve this amendment will assist in the coordinated, comprehensive, adjusted and systematic development of the Maryland-Washington Regional District located in Montgomery County, Zoning Text Amendment No. 04-16 will be approved as introduced.
